AI Engineering Lead. Builds AI tools inside the businesses that use them. Based in Bangkok.

Bangkok, Thailand | fronk.kunanon@gmail.com | kunanonj.com | linkedin.com/in/kunanonj | github.com/KunanonJ
English: TOEIC 725 (2026)

Open to Forward Deployed Engineer and AI engineering roles, based in Bangkok or remote.

Summary

AI Engineering Lead and solopreneur in Bangkok: builds AI tools inside the businesses that use them. Delivered a private-data AI knowledge platform and launched Lunar AI Agent to 10,000 users. Led cross-functional teams of up to 20 people and configured approximately 30 role-based AI agents for GoGoCash. Combines business-process automation with AI product development for nontechnical users.

Experience

IT Manager & AI Engineering Lead Sep 2025 - Present
The Binary Holdings · Full-time · On-site, Bangkok

- Owned the roadmap and requirements for an internal platform covering CRM, support, HR, project management and AI assistance; achieved adoption by 50+ employees.
- Led delivery of a private-data knowledge platform using Google ADK, Gemini and Retrieval-Augmented Generation (RAG) for competitive analysis and executive decision support.
- Automated video sourcing, trimming, review and publishing; reduced recurring workflow staffing from 10 people to 1 operator, with a 30-minute turnaround.
- Partnered with engineering and strategy from requirements through launch; build cycles for the internal company platform fell from 4 months to 1 week.

AI Project Manager Jan 2025 - Oct 2025
Aiden Labs · Full-time · Hybrid
Concurrent with The Binary Holdings during Sep 2025 to Oct 2025.

- Owned and launched Lunar AI Agent, a conversational Generative AI product on Telegram for non-technical users; reached 10,000 users.
- Led a 20-person cross-functional team across engineering, design and marketing using Agile/Scrum; delivered milestones on time with over 90% sprint completion.
- Ran a global growth campaign with 170,000+ participants, supporting onboarding, retention and engagement.

Advisor Nov 2024 - Dec 2024
Aiden Labs · Part-time · Remote
Part-time, concurrent with The Binary Holdings.

- Built the product roadmap and advised on go-to-market strategy.

Technical Project Manager Sep 2024 - Dec 2024
The Binary Holdings · Full-time · On-site, Bangkok

- Digitized HR, Product, Technology and Business Development workflows in Zoho; led product development and engaged executives and global partners, including WorldCoin and Optimism Superchain.

Project Manager Nov 2023 - Sep 2024
Playbux · Full-time · On-site, Bangkok

- Managed product launches from fundraising through exchange listing; launched VaporFund DeFi with partners including VISA and BNB Chain.
- Delivered Trust Wallet and OKX Wallet campaigns with 1.7M+ participants and USD 250,000 revenue.

IT Project Manager Apr 2023 - Oct 2023
Coins.co.th · Full-time · Remote

- Led a 7-member team and 3 vendors to automate electronic know-your-customer (eKYC) onboarding; improved verification success from 60% to 90% and reduced errors to below 1%.
- Authored product requirements in Confluence and managed delivery in Jira, translating customer workflows into developer tickets; introduced information security governance policies.

Business Development Executive Feb 2023 - Apr 2023
The Monk Games - Bitkub Metaverse · Full-time · Hybrid, Bangkok

- Closed a USD 250,000 partnership; developed market-expansion and client-growth strategy.

Business System Analyst Mar 2022 - Feb 2023
KK Venture Global · Full-time · On-site, Bangkok

- Led 9 team members and 3 vendors across 5 projects, achieving 40% cost savings; projects included a metaverse concert generating USD 5.5 million revenue.

Blockchain Developer Feb 2022 - Apr 2022
KK Venture Global

- Built a 10,000-asset NFT collection, marketplace and smart contracts; saved USD 33,000 in outsourcing and reduced infrastructure costs 99.4% using QuickNode.

Smart Contract Intern Nov 2021 - Jan 2022
Bitkub · Internship · Bangkok

- Ranked in the top 1% globally in a smart-contract security CTF; supported DeFi/NFT audits.

Independent projects

GoGoCash May 2023 - Present
Cashback platform · Independent project | gogocash.co
Thailand-focused platform helping shoppers earn cashback on eligible purchases from participating brands.

- Configured approximately 30 role-based agents in Grok Bot for customer support, marketing planning, product development, business development, accounting/finance and HR.
- Led end-to-end development with AI agents for web, LINE/Telegram Mini Apps, iOS and Android.
- 1,000 registered users; THB 13 million cumulative gross merchandise value; THB 169,000 cashback paid.

Manut AI 2025 - Present
ERP/CRM workspace · Independent project | manut.xyz

- Building an ERP/CRM workspace with Intelligence AI for automotive SMEs.

GoSpark In development
AI workspace for business agents · Independent project
Native macOS workspace for nontechnical users to create office and company AI agents.

- Developed for friends and family using AI agents, from product definition to release preparation.
- Supports frontier AI models and Chinese open models for company-related workflows.
